

THE
SAINT PETER DAMIAN
SOCIETY

02/19/2019 -- FOR IMMEDIATE RELEASE --

ROME – The Saint Peter Damian Society is pleased to announce it has officially been incorporated in the state of Washington and is currently also pursuing 501(c)(3) status. This will help enable the society to grow, accept donations, and fund new chapters.

In addition, the Society is seeking canonical status as a private association to help further our goals.

These steps are in line with the Society's goals to become incorporated by the time of the bishops' abuse summit in Rome this weekend.

The Society prays the shepherds of the Church remembers their mission and dutifully protect their flock from the scourges of sexual immorality and abuse in the Church and that the abuse summit addresses these problems in a satisfactory manner.

QUOTABLES:

"As we pray and do penance for the sins of the Church, we are also taking steps to put the Society on permanent footing as a lay apostolate." - Jonathan Carp, SPDS Director
